PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Power BI, SQL, Python, and Excel, backed by 4+ years of operations and distribution experience. Skilled in data cleaning, exploratory analysis, data modeling, DAX, KPI reporting, and interactive dashboard development. Combines technical analytics skills with a strong background in operations, auditing, and reporting to transform raw data into actionable business insights.

CERTIFICATIONS

Google Data Analytics Professional Certificate ↗ — Google / Coursera
IBM Data Analyst Professional Certificate ↗ — IBM / Coursera
Python Programming Basics ↗ — Huawei ICT Academy

SKILLS

Spreadsheet & ETL: Microsoft Excel, PivotTables, VLOOKUP, Power Query, Data Cleaning, Data Transformation, ETL

Programming & Querying: Python, Pandas, NumPy, SQL, Joins, Subqueries, CTEs, Window Functions, Views, Stored Procedures, Triggers

Data Visualization: Power BI, DAX, Data Modeling, Interactive Dashboards, KPI Reporting, Matplotlib, Seaborn

Data Analysis Concepts: Exploratory Data Analysis, Statistical Analysis, Trend Analysis, Business Intelligence, KPI Development, Relational Database Design, Business Insights

Machine Learning & Apps: Machine Learning (delay and bottleneck prediction), Streamlit

EXPERIENCE

Tax Audit Intern — 02/2026 – 04/2026
Egyptian Tax Authority — Tanta Office — *Tanta, Egypt*

- Reviewed financial records and tax data to support accuracy and compliance checks.
- Organized, cleaned, and processed multi-column datasets using Microsoft Excel.
- Prepared periodic data summaries and reports to support auditing and performance tracking.

Operations Manager — 04/2023 – 01/2025
BY — *Tanta, Egypt*

- Managed daily business operations, workflows, and team performance, improving overall operational efficiency by 15%.
- Analyzed operational data to identify bottlenecks and monitor performance.
- Implemented data-driven process improvements that reduced workflow delays by 20%.

Operations & Distribution Control Specialist — 05/2018 – 10/2020
Kareaz — *Tanta, Egypt*

- Managed central control and distribution operations across more than 10 company branches.
- Monitored inventory and distribution data, reducing stock discrepancies by 15%.
- Prepared operational reports and coordinated workflows to ensure accurate and timely product distribution.

PROJECTS

Egyptian Railway Operations Analytics — Graduation Capstone ↗ — 09/2026
End-to-End Data Analytics & Decision Support System | Python | SQL Server | Power BI | Machine Learning | Streamlit

- Developed an end-to-end railway operations decision-support system covering delays, bottlenecks, capacity, fuel efficiency, and revenue.
- Used Python for data cleaning and exploratory analysis, designed the SQL Server data model, then built the Power BI dashboards and Machine Learning components.
- Integrated Machine Learning models for delay and bottleneck prediction with a Streamlit web application.

HR Analytics Dashboard ↗

Power BI | DAX | Power Query | Data Modeling

- Built an interactive two-page Power BI dashboard analyzing 1,417 employees across attrition, workforce composition, income, satisfaction, and performance.
- Used Power Query, DAX, data modeling, slicers, and interactive visualizations to identify key HR insights.

Superstore Sales Dashboard ↗

Power BI | DAX | Excel

- Developed a three-page Power BI dashboard analyzing $2M in sales, $286K in profit, 5,009 orders, and 793 customers.
- Used Power Query, DAX, KPI cards, slicers, maps, and interactive charts to analyze products, customers, locations, and loss-making transactions.

BikeStores Sales Analysis ↗

SQL Server | T-SQL

- Developed a SQL Server sales analysis project covering revenue, orders, customers, products, stores, and inventory performance.
- Applied multi-table joins, CTEs, window functions, subqueries, views, aggregations, and stored procedures.

Python Retail Sales Analysis ↗

Python | Pandas | NumPy

- Developed a reproducible Python project to clean and analyze retail transaction data using Pandas and NumPy.
- Calculated revenue, profit, category, regional, customer, and monthly KPIs, and exported analysis-ready tables and visual reports.

Obour Land Performance Analysis (2020–2021) — Graduation Project

Microsoft Excel

- Analyzed Obour Land business data for 2020 and 2021 to compare performance and identify key trends.
- Cleaned and organized the data and built PivotTables, VLOOKUP calculations, KPI indicators, dynamic charts, and an interactive dashboard.

SCHOLARSHIP & PROFESSIONAL DEVELOPMENT

Professional Data Analyst — 4-Month Intensive Scholarship 05/2026 – 09/2026

Digital Pioneers Initiative (Digilians) *Egypt*

- Completed a 4-month intensive Professional Data Analyst scholarship covering Python, SQL Server, Power BI, Excel, DAX, Data Modeling, and Business Intelligence.
- Applied data cleaning, exploratory data analysis, KPI reporting, and dashboard development through hands-on projects.
- Delivered the end-to-end graduation capstone, Egyptian Railway Operations Analytics, integrating Python, SQL Server, Power BI, Machine Learning, and Streamlit.

EDUCATION

Bachelor's Degree in Computer Science 2023

Tanta University — Faculty of Computers and Information
